Resources, Potential Of Local Area Cited

The Quad-City area has tremendous potential, Chester L. Baker, president of the Tri-Cities Chamber of Commerce said at a luncheon meeting of the Noonday Optimists Thursday at the Elks lodge, "and it is up to the citizens of the community to develop this potential."

Strategic location and resources—both natural and human—were the major reasons cited by Baker for the community's bright future.

"We are in a large metropolitan area only 50 miles from the country's center of population," said Baker, "and we have at our disposal over 11,000 acres of prime industrial land, an almost inexhaustible supply of water, a force of skilled workers, low-priced fuel and power, and excellent community facilities, such as schools, parks and the developing facilities at Southwestern Illinois University."

Baker pointed out that the metropolitan area is the second largest rail and truck center in the nation.

Local, State, National Activities of the local Chamber of Commerce to develop the community were outlined by Baker. Specifically, he cited the role of the Chamber's informal group on governmental affairs, which works on the local, state and national level to promote legislation favorable to the community.

On the local level, several projects mentioned by Baker which have been promoted by the Chamber are the construction of adequate sewers and sewage treatment facilities in the area, improved streets, off-street parking and county zoning.

The Chamber's efforts to have Horseshoe Lake established as a state park was given as an example of activity on the state level. Other efforts on the state level are opposition to a sales tax increase and backing a Sunday closing law for Illinois.

On the national level, the Chamber has a Congressional action committee, which studies pending legislation in Congress and then advises C. of C. members as to how bills could affect the community.

Tax, Spending Cuts Currently, the Chamber is seeking a tax cut with an equivalent cut in federal expenditures and it is opposed to a proposal that would give an additional \$453 million for "area development." Baker said the Chamber is opposed to this because money collected through taxes in such areas as the Quad-Cities are channeled to their areas to attract businesses and industries to the other communities.

"We have 'many fine, blue-chip' industries which many communities would give their eyes teeth to have," Baker said, adding that the Chamber industrial redevelopment committee has as its goal the creation and maintenance of a good business climate in order to induce existing industries to expand here and to attract new industries.

Another Chamber activity was the creation of a favorable climate not only for industry but for agriculture and business as well. Sponsorship of a joint business, industry and agriculture dinner each year was noted.

Free Enterprise Other units mentioned were the free enterprise committee, which attempts to educate the citizenry on basic principles of the private enterprise system as opposed to the Communist system; the downtown parking committee; the highway and transportation committee; and the university liaison committee. Several direct community

services provided by the Chamber were discussed by Baker. He cited its role as a general community information center which provides such services as distribution of regular reports from the Better Business Bureau to all members, maintenance of an extensive library, including 71 city directories, and publication of directories of local manufacturers, organizations and churches.

For Better Community A brief definition of the Chamber of Commerce was given by President Baker. He defined it as "a voluntary association of business and professional men who have banded together to make the community a better place to live, work and do business."

In other activity at the Optimist meeting, Carl Roach, district governor, reported on the district meeting held in Decatur last weekend for orientation of newly-installed club officers from all over the district. Granite City delegates attending other than Roach, were President David John, Vice-President Don Farrington, and G. H. Sternberg, a past international vice-president.

A brief informal report on his six-week trip to Europe and Russia this summer was presented by Henry D. Karandjef, chairman of the board of the Trust and Savings Bank and American National Bank.

At the Optimist meeting next Thursday, a talk will be presented by Richard Allen, Granite City, chairman of the Democratic party, on "Granite City's Need for a Board of Election Commissioners."

About 52 Optimists were in attendance.

Local 4 To Deny Wgnu Charge Of Law Violation

A general denial is planned by Local Four, International Brotherhood of Electrical Workers, of allegations made by Charles H. Norman, St. Louis, principal owner of Radio Station Wgnu, in a \$250,000 damage suit filed last week in the St. Louis federal court.

It is alleged that the union's activities have caused advertising clients to cancel contracts and prospective advertisers to break off negotiations with the station, located on Old Alton road. Minority stockholders in the station are George Moran, a Granite City attorney, and John Karoly, operator of the Big Top Drive-in.

A spokesman for Local Four told the Press-Record that the suit, notice of which has not yet been received by the union, is one of a long series of develop-

ments in the dispute with the station. Local Four contends that it has a right to represent broadcasting employees, while Norman cites staff members' affiliation with Teamsters Local 525.

Reports Financial Loss
Norman alleges violation of the Labor-Management Relations Act, saying the IBEW broke state and federal laws by intimidating advertisers and prospective advertisers. He seeks compensation for "the considerable financial loss suffered as a result of malicious and false statements made to advertisers and coercion" by the IBEW and its officers. He says there is no disagreement of any kind between him and his employees.

The petition relates that the "boycott" began June 1, 1962, after the station and Local 525 signed an agreement. Picket signs, handbills, newspaper advertisements and letters to merchants are cited.

Picketing is still in progress at the station, and the Press-Record learned that letters have been sent telling of plans for renewed distribution of handbills in front of firms advertising on the station.

The Fourth District appellate court in April reversed a June 1962 circuit court injunction against such activity by Local Four, and Circuit Judge Joseph Barr on May 7 dissolved the injunction order. A decision by Barr on \$2825 damages allegedly inflicted on Local Four by the injunction is still pending.

The ceremony was performed by Rev. James R. Craddock, and a reception followed in the fellowship hall of the church.

White gladioli, majestic daisies and fever few in tall standards, together with palms, banked at the altar and seven-branched wrought iron candelabra holding burning candles decorated the sanctuary for the 7 o'clock service.

The wedding party were Miss Jackie Schumacher, maid of honor, and Miss Candy Pindus, bridesmaid, both of whom are daughters of Mr. and Mrs. Schoenhardt, a brother of the bridegroom, and Kenneth Odom, the bride's brother, as best man and groomsmen, James Ash and Carmel Ray Thomas served as ushers.

The honor attendant and bridesmaid were dressed alike in lemon yellow silk organza. The brides, simply made, had scoop necks and cap sleeves. The ballerina-length dove skirts were accented at the waist line in the back with large bows of the fabric.

Matching handmade organza roses held in place short veils, and both girls carried wicker baskets filled with white Marguerite daisies.

The bride and groom are both graduates of Granite City high school, and the former Miss Odom has been employed as a secretary by J. J. Mann, and Bradstreet in St. Louis.

Mr. Schoenhardt, who is serving with the U. S. Navy, will take his bride to San Diego, where he is stationed, and reside after a honeymoon in the Ozarks.

Hearts Drop Fourth Straight; Rain Idles Mercer

GC Club Falls To Last Place As Moosemen Triumph 10-8

Press-Record SPORTS

Granite City PRESS-RECORD
Page 6 Mon., July 29, 1963

Red division pace setter Moose Lodge of East St. Louis rallied with three runs in the top of the ninth here yesterday to hand Sacred Heart a 10-8 defeat in Inter-City Baseball league play at Wilson Park.

The setback, fourth straight for the Hearts, dropped the Granite City club into a last place tie with Collinsville, as the Busters came up with an 11-6 victory over Troy.

Mercer Funeral Home and the Altwood Flyers, scheduled at Roxana, were rained out.

St. Clair Defeats Braves

Everybody else played, however, and St. Clair Heating of East St. Louis chalked up a big win over Pocahontas in a meeting between the 1-2 teams in the Blue division.

St. Clair broke a 7-7 tie with a single run in the bottom of the ninth at Jones Park, and the 8-7 victory helped the club go 2½ games ahead of the defending champion Braves.

Carpenter picked up a half game on the idle Mercermen by stopping Maryville on Jim Blackledge's five-hit pitching in yesterday's fourth game.

Big Tasting Wasted

Sacred Heart splurged with its biggest inning of the year here yesterday, but it was all in vain. The Hearts knocked out Moose pitcher Doug Edwards with a six-hit, six-run eighth inning which put the GC team ahead 8-7.

But three unearned runs off Clarence Jones, who relieved Heart starter Jack Buentje in the ninth after Buentje had been lifted for a pinch-hitter the previous inning, gave the Moosemen their final margin.

Moose touched Buentje for sev-

en runs in the first four innings, and the Hearts made it 7-2 with single markers in the fourth and sixth.

Sam Georff touched off the eighth-inning comeback with a single. Clayton Harrison doubled him home and after Mike Suss had walked and Steve Schardan had fanned, Frank Hildebrand kept things going with an RBI single which scored pinch runner Mike Dillon. Jim McKeehan followed with another ace to score Suss, and Bob Price then doubled home both Hildebrand and McKeehan.

Bob Hoffke's two-bagger plated Price with the leading run. Hoffke's hit came off Larry McCaskey, who was the eventual winner when the Heart defense and Jones' control wavered in the ninth.

Two Walk Home

With one out, Walt Wielgus singled on the infield and Bob Storge's double-play grounder was bobbled. Glen Bischoff singled to load the bases and Don Bruce's sacrifice fly got Wielgus home with the tying run.

Jones hit Walt LaChance with a pitch to load the bases and then walked both Jerry Koehler and Bill Moder to force in two decisive runs.

The Hearts threatened in the ninth. Dillon and Schardan wrapped singles around a strike-out before McCaskey got Hildebrand to bounce into a game-ending double play.

Crabtree's round-tripper was the only hit for Millie & Mickey's, which advances to the second round of the double-elimination tournament to play the Vandalla Merchants at 8:45 p.m. Tuesday.

Hollis Hurt Critically In Accident At Race Track

Dave Hollis, 4153 Breckenridge Lane, one of the top competitors in modified stock car racing on Illinois and Missouri tracks, remains in critical condition today at Barnes Hospital, St. Louis, after sustaining injuries in a crash Saturday night at the Tri-City Speedway.

Hollis suffered a possible brain concussion when he lost control of his car in the east curve of the speedway's half-mile oval during the first lap of a handicap race for the fastest qualifiers. The car flipped and he was knocked unconscious.

He was still unconscious at noon today. Doctors fear he may have sustained a serious concussion at the base of the skull.

Hit Loose Dirt

Witnesses at the track said Hollis' car, in which one driver had been killed before he purchased the machine, "went too high" on the east curve, struck loose dirt, flipped end-over-end three times and then rolled sideways down the banked curve. Hollis was taken from the wreckage to St. Elizabeth Hospital and then transferred to Barnes.

The accident occurred in the first lap of racing for modified cars. Hollis had turned in the fastest time in qualifying runs and was competing in a handicap race for the six speediest qualifiers.

Peuterbaugh Was Feature

Bill Peuterbaugh was the winner of the feature race for modified competitors, followed by Bill Meyer and Chuck Lynch. Lynch, Art Pauley and Meyer won modified heat races.

In the amateur class, Don Scroggins took first in the feature event. Bud Pursley was second and Ed Meyer came within inches of winning when Ron Taylor were preliminary heat winners.

Lamb And Glisson Stop Palmer House

Saturday, 6-0, 1-0

The Granite City park district's Class "A" softball club gave 1962 Illinois ASA softball champion Peoria Palmer House some food for thought here Saturday night by blanking the champions twice at Wilson Park.

The park, which lost the state title game to Palmer House last year, rode the fine pitching of Howie Lamb and Carroll Glisson to 6-0 and 1-0 victories at Wilson Park.

Could Meet Again

Granite City could meet Palmer House again, if the park club can get through the ASA sectionals which are being played this week at Caseyville, Peoria, as the defending champion, is already bracketed in the Alton state finals, which begin Aug. 14 and will include the winner and runner-up from Caseyville.

Palmer House had lost only three games in 25 appearances against Class "A" clubs prior to Saturday night.

But Lamb blanked the titlists on just one hit and the park broke up a 0-0 ballgame with a six-run eighth inning against Peoria pitching ace Bob Naab.

3-Run Single By Champion

Singles by Marv Brokaw, Jake Hintereiser and Lamb were followed by Ron Dillard's two-run double, a walk and single by Art Borchers, and a decisive bases-clearing single by playing Manager Babe Champion.

Lamb walked only two, and one of them, Don Van Sack, was cut down at third when he tried to advance from first on Don Salzman's single, the only hit off Lamb. Howie fanned 13, while Naab struck out seven and gave up seven hits.

Glisson At Best

Glisson came on in the second game to turn in his best pitching effort of the season. He scattered four hits, and worked out of trouble in both the third and fourth innings to edge Art Bland in a fine pitchers' duel.

An unearned run beat Bland, although he was touched for six hits. Brokaw reached on a one-out error in the fourth and Glisson drew a two-out base on balls. Dillard then came thru with the game-winning hit, a single to center field which scattered Brokaw with the game's only run.

Dillard had doubled to open the first, but was out trying

Rain yesterday washed out the park's scheduled doubleheader with DeWille Motors of St. Louis, and left Granite City with a 30-19 record for the season.

St. Mary's Wins Church 'A' Title; Niedringhaus, Community In 'B' Tie

St. Mary's of Madison disposed of its closest rival to clinch the "A" division championship in the park district Church Slow Pitch softball league Friday night at Wilson Park, and Niedringhaus Methodist came from behind to finish in a tie for first place in the "B" division of the same league.

St. Mary's clipped second-place Cedar View Baptist 11-7, averting what would have been a first place tie if the Baptists had won.

2nd Baptist Wins Classic 'B' Division

Ray Watson pitched Second Baptist to the regular season title in the "B" division of the Classic Softball league here Thursday night, beating the GC Oilers 7-2 on a two-hitter.

It was the Baptists' sixth league win in seven games and gave them first place in their division mathematically.

Second-place Madison Bowl blanked Union Starch 4-0 on Howie Lamb's two-hitter, but MBL has lost six times and cannot catch the Baptists.

Second picked up two runs in the first inning on Gary Doser's double, an infield hit by Norm Hessler, a wild pitch by Joeson Lloyd and Jim Rippe's sacrifice fly.

Watson wild-pitched Oilers runs home in the third and fourth, but three walks, a sacrifice bunt, error and George Sykes' double led to three Baptist runs in the sixth.

Five Scoreless Innings
The sixth inning was also the decisive one in MBL's win over Union Starch. Lamb and eventual loser Bailey Walker had battled through five scoreless innings before Walker lost his control.

one-out single by Red Schmidt, infield out and Frank Lamb's ace got one run home. Walker wild pitched Lamb to third, hit Roy Steinmeyer with a pitch and served up a triple to Fred Tritschch. Lamb drove in the fourth run with a single, fanned 10 and gave up singles in the second and seventh.

With playoffs scheduled to begin in both divisions next Tuesday, Aug. 6, the Classic schedule has been stepped up in an attempt to get in all rain-out games by that time.

Tomorrow night's regular schedule shows Rome & Roy's vs. Millie & Mickey's and Spengler-Dawes vs. GCS Credit Union in a pair of games which will help decide the "A" division champion.

Makeup games to be played Wednesday night are Union Starch vs. the Oilers at 7 and Second Baptist vs. Spengler-Dawes at 8:15. On Thursday night, the Oilers and Union Starch will meet in the first game and Second Baptist and Madison Bowling Club in the second.

Tavern Loop Leaders Are Upset, 9-8

Pollish Hall and Bowland again are tied for first place in the Sunday morning Tavern Slow Pitch

Pitch Softball league standings, and Stan Serwatka the loser. Bowland got two home runs from Frank Scarsdale and three hits from Babe Amelung; Senny Miloski defeated Gene McMurry, Bill Duncan and Harold Humphries each hit homers for Madison Bowl.

The top pitching effort Sunday was the work of Jim Goodrich, who tossed a one-hitter at Home of the Blues as Sportsman's Club racked up a 16-0 shutout.

Jerry Dusek homered for Liberty Home, while Bernie Demko tossed three hits for Pollish Hall. Al Timko was the winner

Friday night's first league game between Madison Baptist and Venice Methodist had little bearing on the standings, but the Baptist pounded out a 25-1 win anyway.

Eight Baptist Homers
They collected eight homers, three by Bill Page, two each by Frank Eaves and Ira Martin and one by Ron Grzywacz.

St. Mary's was outslugged but not outscored by Cedar View. The losers' Jim Black drove in three runs with a pair of homers, the second coming in the sixth inning when Cedar View rallied with five runs. Jerry Dusek was one out of the park with two teammates aboard in the same inning.

St. Mary's broke a 7-7 tie in the bottom of the sixth with four decisive runs on doubles by Everett Cottrell, Rich Mendes and Norm Owca, winning pitcher Stan Serwatka's single and a Baptist error.

Home Runs Are Margin
Niedringhaus also had to stage a strong finish to the Community Heights for first place. The club overcame a 7-4 Bethel lead with a seven-run fifth inning and sealed the victory with a sacrifice fly.

Burl Treadwell and Maurice Hemphill and Bill Lerch's triple among eight hits off loser Bob Bickler.

Lerch and Hemphill hit back-to-back homers for the Methodists in the sixth, and they proved to be the margin of victory as Bethel rallied with five runs in the bottom of the frame on five singles, a sacrifice fly and Bob Widline's double.

posal office.

While the group referred to jail maintenance financing as an "endless battle," the visitors badly damaged by a car accident and general appearance there was observed in previous years. Fraudulent attributed to the stricter enforcement of cleanliness rules for prisoners.

Pin boxes around the light fixtures were made on-flying reports that inmates not only break the light bulbs but also sometimes rip out the wiring.

A later visit is being planned to the boiler room building which provides heat for both the jail and the nearby county courthouse in Edwardsville.

The ground visiting the jail also found a foundation wall on the south side jutting out four to six feet. With a crack in the wall wall rising to the second-floor level.

It was tentatively decided to proceed with installation of a ventilator fan and painting of ceiling that houses cells for women and juveniles. There is a current balance of \$304 in the painting budget.

AWAIT FUNDS

Any emergency repairs are to be paid out of a contingency fund, but other improvements will have to wait at least until next year, Bryant said, pointing out that \$83,000 has been spent in improving the jail during the past three and a half years.

First priority may be given to new locks and "riot-proof" light fixtures for a single cell block that could be used for unruly prisoners, the chairman said.

Of \$1173 budgeted for jail repairs in 1963, \$344 remains. A \$2200 allocation, plus \$156 taken from the repair fund, has been expended to convert a room in the jail-shed residence building into a records center and disposal office.

While the group referred to jail maintenance financing as an "endless battle," the visitors badly damaged by a car accident and general appearance there was observed in previous years. Fraudulent attributed to the stricter enforcement of cleanliness rules for prisoners.

Pin boxes around the light fixtures were made on-flying reports that inmates not only break the light bulbs but also sometimes rip out the wiring.

A later visit is being planned to the boiler room building which provides heat for both the jail and the nearby county courthouse in Edwardsville.

The group was called to order by the president, Mrs. Louis Rousseau, and the topic of the evening, given by Mrs. Henry Wahrenburg, was "Why Worry?" The LWML pledge and song followed, and there was a regular business session.

Plans were made by the ladies for readying the parish hall in preparation for the arrival in August of Vear Leander Brendt, who was recently appointed, and for dispensing with the regular August meeting of the league.

The usual meeting schedule will be resumed in September.

Mrs. Hilda Klug and Mrs. Alfred Bule reported on the Lutheran Women's Missionary League International convention held in Kansas City last week.

After the adjournment, refreshments were served by the

hostesses, Mrs. Jeanette Underwood and Mrs. Millie Schubert, to Mesdames Alvin Accola, Freeman Roberter, Bule, Klug, Charles Knecht, Harry McKay, Oscar Moebel, Carl Reiske, Charles Roessner, Rousseau, Dale Schmeider, Ralph Tharp and Wahrenburg.

Mrs. Helen Cavar to hold it in her home on Maryville road. The major lesson was given by Mrs. Eleanor Barnhart and was entitled "Better Care Means Longer Wear." Included in the

lesson were the proper ways and products used in caring for furniture, carpets, drapes, running spots and scratches from furniture to insure longer wear and use of household furnishings.

A dessert luncheon was served at the close of the meeting by the hostess and Mrs. Cavar to a guest, Mrs. Rose Reimer and members, Mesdames Lillian Adams, Hazel Archibon, Angie Brown, Mary Chesney, Lorraine Craig, Dolly King, Lillian Ruebhausen and Don Wilson.

There will not be a regular meeting in August, but Sept. 26 will begin the winter session.

The stone carries the single inscription, "Father." Where it came from, who placed it in the park and why, were the unanswered questions.

There was no report of a theft from either a cemetery or a monument establishment. Some believe the act was the work of vandals or juveniles out on a lark with an avary sense of humor.

For the children at the park, it was reminiscent of exploits of Tom Sawyer and Huckleberry Finn.

Mrs. Sanna Martin of Venice entertained yesterday afternoon for the eleventh time in the War Auxiliary, met at the Pythian temple. Mrs. Clara Elliott presided, and ten members were present. There were games for entertainment, and prizes were presented to Mrs. Clara Redmond and Mrs. Clara Elliott. After the meeting, luncheon was served to the ladies and the men of the post.

The YMCA camp, comprising 50 voices, will accompany John H. Kleinshmidt to Menard penitentiary, where the camp will participate in three camps next Sunday morning. Prof. John Morgan is director of the glee club.

Louis F. Frosen of Granite City, who is vacationing in San Diego, Calif., writes that he is still enjoying the weather in that climate, but that a man has had little success. He plans to try his luck at the Colorado Islands where the fish are, they catch fish weighing 300 pounds.

AREA GOOD WILL AIDED JULY FOURTH FESTIVAL

To the Editor:
 Our annual Fourth of July celebration was a most successful one, as usual, judging from the many expressions of appreciation received from the citizenry in attendance.
 It is wonderful to live in an area such as ours, where the feeling of good will towards one another is not only talked about but actually practiced. This is what makes our area the potential that it is in every respect. Our entire membership thanks you for your help.

NO ACTUAL SAVINGS IN SANITATION COSTS

To the Editor:
 We read in the paper where there was not much of a saving on the sanitation collection from out-of-town. It was said there would be \$20,000 saved. It looks to be \$2000 or \$3000.
 Now could this be called a saving when it is the difference between five or six men for this job compared to our 19 men? Figure the difference in men and money.

We could save a lot with more trucks on St. Mary's trucks. I believe our ex-sanitation workers would be willing to take on the job. It would save more money going to our city and our own taxpayers holding jobs.

Of course, maybe some older men may object, because the men were against them in the last election. I believe our men and aldermen who voted in the out-of-town sanitation department should vote more time and then run away and hide their faces.
 They caused 19 men to lose their jobs, and some can't get a job, maybe, due to their education.

Advance Planning Essential To Avoid Unnecessarily High Sewer Repair Costs

Once burned, a dog or cat is wary of a stove. Adult humans have to be at least that wise. The Terrace Lane sewer breaks plunged the Granite City municipal government so far into the red that it is still levying more than \$150,000 extra a year to pay off the debt.

Aspects which have come under criticism are the brevity of the contract specifications and the initial failure to assess the full scope of the problem. The eventual solution, replacement of the drainage line, occurred only after a false start in which costly repair work was carried out.

Whether or not the Jill avenue manhole setting is a harbinger of a new spending binge as large as that of the Terrace Lane project, all city officials seem convinced that further major sewer problems are inevitable along the line installed in the Nameoki area during the mid-1950s.

As Alderman William McGee said last week, it would seem wise to begin planning now along several lines. The Jill avenue episode spotlighted the importance of adequate specifications even in an emergency or urgent situation. The cost of "blank check" specifications is simply too great; those awarding contracts must specify details even when working fast to remedy an emergency.

In addition to tighter specifications, other methods of preparation or even prevention might be developed if a study is made.

Based on the big portion of the city budget occupied by sewer maintenance, the subject is one that merits immediate attention. As numerous aldermen have pointed out, the next crisis could occur at any time.

4 Million Vehicles For 10 Million Residents

Rapid growth of Illinois is illustrated by the latest statistics issued from the office of Secretary of State Charles F. E. Culler.

Only several years ago, the 3,000,000 milestone in automobiles was reached, with Don Chamberlain, Springfield correspondent of the Press-Record, affixing a license plate bearing that number onto his car.

The six-number or two-letter-four-number system since adopted no longer permits numbers of that magnitude to be displayed. But the number of autos has continued to rise, increasing to 264 in the last year to a 1963 total of 3,389,357.

Combined with 467,150 trucks and buses, 173,577 trailers and semi-trailers, 23,383 motorcycles and 8153 mopeds, the total number of vehicles in Illinois is now nearly 4,000,000 passenger autos produce a grand total of more than 4,000,000—a huge number of motor vehicles for any state.

The 4,000,500 tally represents almost one auto for every two and a half people in the state, indicating that the two-car trend is making headway throughout Illinois.

Wage-Hour Provisions Will Change Sept. 3

Mailing of a brochure of information material to employers in connection with the new wage-hour provisions of the Fair Labor Standards (Federal Wage-Hour) Law has been announced by Clarence T. Lundquist, administrator of the Division of the Department of Labor.

The brochures include an official poster which must be displayed in places of employment, in addition to other information such as highlights of the act, a list of regional field offices of the divisions where official information can be obtained, and coupon for requesting further information or publications.

Lundquist stressed that effective Sept. 3, 1963: 1. The minimum wage for employees engaged in interstate commerce or in the production of goods for interstate commerce will be raised to 15 cents an hour. 2. The minimum wage for non-manual workers will be raised to 12 cents an hour.

Grades of maximum workweek standard goes into effect for employment in certain large enterprises engaged in commerce or the production of goods for commerce—principally retail and service establishments—on Sept. 3, 1963. The new provisions of the Act for the reduction of regular hours of work by the amendments of 1961.

Over time hours become payable at the rate of at least one and one-half times the regular rate of pay after the fourth hour of overtime work in a workweek. The administrator urged the interested public to get in touch with the nearest office of the act, or with the Public Contracts Division for further information about the law and the approaching changes.

Sentence Shows Drivers Must Take Responsibility For Their Actions

Sentencing of a Granite City man to a one-year term at the state penal farm calls new attention to the legal concept that each motorist must take full responsibility for the damage, injury or death caused by his automobile.

While referred to as "accidents," traffic mishaps must be judged individually. No willfulness was involved in this case, but it was determined in court that there was recklessness to a degree that a mere fine or reprimand would have been insufficient.

Prison bars for a traffic offense may appear to some as severe punishment, but streets and highways must be made as safe as possible for individuals and their loved ones, particularly young children. No court ruling, of course, can make up for the death of the 14-year-old boy, struck from behind while pushing a newspaper cart and carried 360 feet by the auto. In view of the charge that the motorist was drinking, and the obviously high speed of the car, the one-year sentence could be regarded as light.

The tragic occurrence should serve as a warning to pedestrians—and to all who get behind the wheel of what can accurately be described as a deadly weapon, a motor vehicle.

Best Things In Life Are Free—Don't Miss Them

The photographs of well-known Quad-City buildings in a Press-Record picture page last week were presented in a spirit of light summer fun. We hope the task of identifying seemingly well-known structures proved challenging and enjoyable.

But the topic brings to mind a more serious thought: How much do we see our surroundings? How much real attention do we pay to the people and the places that we pass each day?

It is said that only those who have been near death learn to appreciate to the maximum the little things in life—experiences and sensations that persons with only a casual outlook do not notice at all. There is the beauty of the nighttime sky; the aroma of baking bread or percolating coffee; the pleasant warmth of the sun on a spring fall day when nature has magically turned the earth into a sea of green and gold; the sparkle in the eyes of youth, and the twinkle when those eyes have grown old.

There can be exceeding enjoyment in being alive, not merely existing with little or no recognition of the countless blessings, but exulting in them—above all, being aware of them.

It may be possible to go through life with a closed heart and mind, but true satisfaction surely must come from perceiving what is going on beyond an individual's personal sphere of problems and interests. To live "outside" oneself is to fully live.

Court Transition A Challenge To Public, Attorneys, Judges

Newly-named Chief Circuit Judge James O. Monroe Jr. is right when he comments that the drastic court changes effective Jan. 1 could result in turmoil and confusion for several years, unless all strive to make the judicial process function smoothly during the transition period.

Whether Illinois' new trial court system will live up to its potential as one of the finest in the nation depends to a great extent on the cooperation of the public, attorneys and judges in various roles in the courts, including attorneys.

Undoubtedly, refinements by future legislative sessions will prove necessary, but the basic new judicial structure should be such that justice—and speedily-achieved justice—can be achieved at all court levels.

It costs \$203 for a baby to be born today, statisticians report. There is no known way for the baby to obtain a refund, however, if he is not satisfied.

New sources of funds are being developed for farmers wishing to develop rural recreation facilities. Two federal agencies, Farmers Home Administration and Agricultural Stabilization and Conservation Service, started offering financial help early this year.

At present, the ASCS has five projects, but none have been started. The ASCS has two programs: 1. A cost-sharing grant covering the cost of planning and construction of a recreational facility. 2. A grant-in-aid program for the construction of a recreational facility.

The annual farm management tour of this area, sponsored by the Lincoln Farm Bureau Farm Management Association and the Agricultural Extension Service, will be held this year in St. Charles, Mo. The tour will start at 10 a.m. at the farm of Melvin Stump, near Belleville, and will end at 4 p.m. at the farm of Melvin Stump.

Most Accidents Need Not Happen

The daily schedule for home observance of National Farm Safety Week this month calls for a busy day, to be red in the breakfast table each morning.

Sunday—Reverence for life: Take time to take care. Be safety conscious and open-minded to safety suggestions. Remember—most accidents need not happen, serve no desirable or useful purpose. It's up to the individual—a moral responsibility—to act safely always to protect and prevent harm to himself and others.

Monday—Safety begins at home: Nestle into safety. Make sure all equipment is in safe operating condition. Keep place for everything, and keep everything in its place. Eliminate unsafe practices in the kitchen and elsewhere. Check electric appliances that they are in safe repair.

Tuesday—Agricultural chemicals are becoming more widely used in agriculture and around the home. Always read the label, use as directed, store in original container—away from children—and in locked container. Dispose of empty containers safely.

Wednesday—Prevent falls: Good planning reduces the temptation to hurry, means better production and fewer accidents. Discard brooms, rakes, ladders. Place guards on hazardous places. Netness eliminates a moral responsibility.

Thursday—Highway safety: Courtesy is one key to traffic safety. Observe rules of safe driving and walking on roadways. Remove trees, weeds, shrubs at farm entrances and intersections to improve visibility. Obey "Signs of Life."

Friday—Farm machinery: Make sure all equipment is in safe operating condition. Keep guards and safety devices in place. Always stop machine in place. Always use proper technique before unclogging, oiling or adjusting them. Equipment should be well lubricated with flags and properly lighted.

Saturday—Recreation safety: Take safety seriously—everywhere. Be aware of where you are, and of the water—both large and small—be especially careful. Learn to handle guns properly. Include safety in family vacation plans.
